- Software Engineering
- Other potential jobs could come up

Safran is an international high-technology group and Tier-1 supplier of systems and equipment for aerospace. Operating worldwide, Safran has 69,000 employees and logged sales of $US20.4 billion in 2014.

Comprising a number of companies, the Group holds, alone or in partnership, world or European leadership positions in its markets. To keep pace with its fast-evolving markets, Safran undertakes extensive research and development programs which, in 2014, totaled investments of $US 2.6milion. Safran is listed on Euronext Paris and on the CAC 40 index.

When & How to apply?

Opportunities will be posted on Hokies4Hire at the beginning of July!
