Google Classroom

Quick Start-up Guide

Instructional Technology Team, College of Engineering
Last Updated: Fall 2014

Email tabletteam@vt.edu if you need additional assistance after reading this document.
Getting Started

Google Classroom is Google App that is designed to help teachers manage their classroom. For an overview of Google Classroom, go to https://support.google.com/edu/classroom and select if it is not already selected. The headings underneath will tell you more about Google Classroom.

Google Classroom is only available for Google apps for Education users. This means that you must use you Virginia Tech Google Apps credentials to login. To login to any of the Virginia Tech Google Apps services, you will need to use your PID and Google Password.

- If you do not yet have a VT Google Apps accounts, go to https://computing.vt.edu/kb/entry/3933 to get started.
- If you are new to the VT Google Apps services, go to http://start.google.vt.edu/help for an introduction.
- If you do not know your Google Password, go to https://my.vt.edu/accounts/myaccounts/ and login with your PID and PID password to change your Google password.

Logging into Google Classroom

1. Go to https://classroom.google.com
2. Login using your VT PID and VT Google Password.
3. Select TEACHER or STUDENT

Additional Instructions

For addition instructions, go to https://support.google.com/edu/classroom.

- If you selected TEACHER when logging in:
  1. Select Teachers
